Reducing the spread of the virus by other means:

- Students kept in discrete bubbles of 15 or fewer except in exceptional circumstances such as for child protection purposes.
- Records kept of bubbles and those on site on specific dates
- All teachers to take regular lateral flow tests
- No-one to come on site if they or a family member have symptoms or they have been told to self-isolate.
- All over 11s taking regular tests through school
- One way system in place
